Chief Bryan Champagne
Broussard Fire Department
501 1st Street
Broussard, LA 70518

Chief Champagne,

I wanted to convey our thanks for the outstanding response by members of your department to the incident that occurred in front of our StorageMax facility on U.S. Highway 90 when a bucket truck got into overhead power lines causing an injury to a worker and a fire. It got more exciting when we realized the burning truck was sitting directly on top of a natural gas pipeline.

Our call to 911 was answered immediately by your department and many others. Later, I was able to thank a few of the firemen but certainly missed the opportunity to thank most of them. Please tell them how much we appreciate the assistance when we really needed it.

I don't think anyone, anywhere, could ask for a better emergency response.

Thank you very much,

Jack Showers
Managing Member
StorageMax Six, LLC

PS: Your department has a very good website!
